Digital Transformation Project Management

SEGUCE RDC is the operating company of the Integrated Single Window for foreign trade. It is the concrete result of implementing a high-technology digital Single Window designed to facilitate all import-export operations in the DRC and is the ideal tool placed at the service of the Congolese government to successfully carry out the President's project :

"To make the Democratic Republic of Congo (DRC) a prosperous digital nation and a technological hub in the heart of Africa by 2030."
